

SEDGWICK CLUB CONFERENCE

The Sedgwick Club are excited to announce our sixth annual Sedgwick Club Conference, a day of exciting talks by academics across a broad range of disciplines in Earth Sciences, with a free lunch and followed by a drinks reception. There will also be a poster exhibition, with a £50 prize for the best entry.

SPEAKERS

Ophiolite perspectives on oceanic mantle compositional heterogeneity
Dr Brian O'Driscoll, University of Manchester

**The Impact of Wintertime Sea Ice Anomalies on High Heat Flux Events
in the Iceland and Greenland Seas**
Dr James Pope, British Antarctic Survey

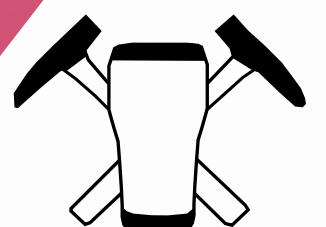

Earthquakes of the Silk Road
Dr Richard Walker, University of Oxford

Building resilience through drone-based strategies for volcano monitoring
Dr Emma Liu, University of Cambridge

**Motion in the fossil record: Reconstructing dinosaur limb kinematics from
fossil footprints**
Dr Peter Falkingham - Liverpool John Moores University

Sink or Stall: Subduction Transition Zone Dynamics
Dr Saskia Goes - Imperial College London

Friday 15th March, 12pm-6pm
Tilley Lecture Theatre, Earth Sciences Department
